

Clean Extinguishing Agents

The extinguishing agents listed in this section are electrically nonconductive agents that extinguish fires as noted and leave no residue upon evaporation. These agents are listed in National Fire Protection Association: NFPA 2001, Standard on Clean Agent Fire Extinguishing Systems and are accepted by the United States Environmental Protection Agency (EPA) Significant New Alternatives Policy (SNAP) Program, subject to any SNAP "Narrowed Use Limits" and other restrictions.

Jurisdictions **outside** the United States may **not** recognize NFPA and EPA sanction of certain clean agents. Local and national governmental regulations should be consulted **prior** to agent selection.

Novec 1230

Novec™ 1230 (chemically identified as dodecafluoro-2-methylpentan-3-one (CF₃ CF₂ C(O)CF(CF₃)₂).

Clean Agent for use in FM Approved fire extinguishing systems that have been tested expressly for use with 3M™ Novec™ 1230 Fire Protection Fluid agent. Class A (surface burning only), Class B, and Class C extinguishing capabilities.

NOAEL 10 %.
